

BATTLE OF BLOODY RIDGE

Youngson Weist

X In Korea, American artillery opens up. The target is Bloody Ridge.

X U.S. and Republic of Korea officers map a campaign to storm the ridge which, like the infamous Heartbreak Ridge, had been captured once only to re-fall to the enemy. In these remarkable combat films, men of the R.O.K. Fifth Division advance through the brush under enemy fire. Occasionally a man rolls over suddenly to escape sniper's bullets whining far too close.

X With shells bursting around them, riflemen let go with tracers at an enemy bunker.

X The Red inmates of the bunker are flushed out, hands up.

X In the gathering dusk, the Battle for Bloody Ridge continues. Twenty miles north of Yanggu, it is the most heavily fortified hill in the "Iron Triangle."

X That night, flares are sent up to spot a possible counter-attack. But the Reds are finished - and Bloody Ridge is ours.
