Dear ~~Mr. Howard Thomas~~:

On Tuesday next (Jan.15th) Henry Lewandowski, a young Pole, will attempt to ride a seven feet high bicycle from London to Brighton. He will propel the machine while wearing stilts. He was a ring boy with Bertram Mills Circus and was taught stilt walking by the clowns. This will be his first endurance test, but he is confident that he can manage the journey. He has been covering an average of about 15 miles a day in the last twelve months on his stilt bicycle.

Sincerely,

*W. Buchanan-Taylor*
