HOLIDAY SPORT

Making the most of the finest Easter in years, Britain hits the trail for the holiday spots. Off to the wide open spaces - which won't be so wide open when this lot arrive.

But you needn't go to the seaside for seaside fun. Don't argue with the girl friend - just take her to Teddington, for instance, and hoist the jib - and spanker!

It's roaring business, too, for the river steamers - with the skippers roaring at the little boats to get out of the way, perhaps!

At Herne Hill you can hardly walk for cycles at the Easter meeting, but it's worth the trouble, as British cyclists beat some of the world's best in major events. Foreigners usually sweep the board.

There's quite a Dominion flavour, too ... including a track champ from Australia.

To round off our visit to Herne Hill here's Keith Bentley who won the "Golden Wheel" Trophy.

Phew! Now for something less strenuous - a ride on Wally, the Zoo's new proud father, or the baby elephant.

The Zoo is still so popular you'd have to climb a tree to get a bear idea of the crowd. Do you remember Brumas? Wonder whether she's remembering last Easter when she was all the rage. But everybody's excited about something else this year ... they're just dying to see the new baby brown bears.

Remember Wally hard at work? Well, here's Peggy showing off their fortnight-old baby.

For the first time since it was blitzed, Monkey Hill is open again. The 240 Rhesus monkeys flew here from India - in a 'plane, of course.

The Wild Man of Borneo or Or-rung Outan ... Hillo, what's he so interested in? Why, of course, it's motor-racing at Goodwood and there's a sensation there all right - young Mick Hawthorn in his 2-litre Cooper who beat world champion Fangio in another Cooper, in the Chichester Cup.
