Essential to America's political health today is a genuine two party system. The medical health is ~~in~~ danger if one ~~the~~ party by whatever means becomes permantley or too long entrenched in power. The almost inevitable consequences of graft and incompetence in remote and even in prominent places in Government. Obviously this is a thing that applies today, one party has been in power too long in this country. Today must be spirtually, economically and militarilly strong, for her own sake and for humanity. She must guard her solvency as she does her physical frontiers. Ladies and Gentlemen, I beleive we can have peace with honour, reasonable security with national solvency, I beleive in the future of the United States of America.
