LEICESTERS FROM KOREA

The Empire Orwell docks with a ship-load from the East, mostly the 1st battalion. The Royal Leicesters: and here's the Lord Mayor and Lady Mayoress come all the way to Southampton to welcome the Tigers back home after more than a year in Korea. They've been more than three years in the Far East.

And in Leicester there's a tremendous welcome for them. After long leave they expect to go to Germany. Meantime Leicester's wide open to the boys who have done such fine work right round the other side of the world.

At the Town Hall the Lord Mayor takes the salute. It's the departure and return of our troops that reminds us that we're playing a big part in the United Nations campaign in Korea and the Leicesters (home after doing their fine share) deserve the big welcome Leicester gives them.
