SPECIAL TRAILER

Forty-two years ago, Pathe cameras were at Caernarvon to record this moment of history when King George the Fifth guided the young Prince of Wales after his investiture. Pathe News, the first British newsreel, began in 1909 as Pathe Gazette, and through the years it has brought the world's greatest and most colourful scenes to our cinemas. Perhaps the most splendid have been those in which our Royal Family have figured - like the wedding of our young Queen. In the historic year ahead, Pathe will have the honour of presenting an event unsurpassed in pageantry - the Coronation of Her Majesty the Queen. But at all times, this cinema will bring you the greatest events from all parts of the world - presented in Pathe News.
