THE LAYING OF THE CATHEDRAL FOUNDATION STONE, KUCHING.Bishop's Address.

Others before us have aimed at a new Cathedral but have had to postpone the day. We, in our generation, are driven to the work; firstly any really adequate repair to the old structure after its war-time damage would cost so large a sum as to be uneconomical. Secondly, we have now outgrown the old building and there is no further room on that site for extension; we need more room for the growing family which gathers here to worship God.

It was in faith that MacDougall in 1849 set his hand to the building of St. Thomas' Church.

It is in faith that we today set our hands to the task of building a new Cathedral; this must be large enough for the second hundred years, and it must keep step with the other developments in this town of Kuching and Diocese of Borneo. We are not ignorant of the magnitude of the task; but we rejoice that we have the great privilege of playing our part, not in patching something old and somewhat of a museum piece, but in the building of a beautiful Cathedral, suitable for our needs and at the same time proclaiming to all who look upon it that this God is our God for ever and ever, that in Him resides all Truth, all beauty, all goodness; and that in the Cross, which in due course will surmount the whole edifice is our glory and our victory.

To Her Royal Highness we shall ever be grateful for the signal honour which she has been graciously pleased to bestow upon us. It was the first Rajah who called for the Christian Church to come to this land, who gave to the Church this site, and who encouraged MacDougall in the formidable task of building a Church wherein at first only a tiny handful gathered to worship. It seems wholly fitting that on the first visit of a member of the Royal Family to Sarawak your Royal Highness should be here today to give us in our generation the encouragement that we need as we face our great task. With that encouragement, strong in the faith of our Lord Jesus Christ, we will build humbly, bravely, confidently and well upon the foundation stone which I now ask your Royal Highness to lay.
