CORONATION AMBULANCE

Canon Complin blesses a new coach provided by the "Not Forgotten Association" for men like Major Cohen, V.C. and other ex-servicemen unable to walk through injuries received in action. On Coronation Day, men from the Star and Garter home at Richmond, and from the Roehampton training centre, will be conveyed in the coach to watch the procession. Specially built to accommodate wheelchairs, the coach was purchased from the funds of the "Not Forgotten Association," an organisation which aims to provide comforts for those who gave so much in two world wars. On June the Second, the suffering that these men have long endured will be eased as they share in all the splendour and pageantry of Coronation Day.
