AMERICAN STOCK CARS COMPETITION
Paris, Buffalo grounds
May 10th.1953
also covered by all competition
Positive developed: 22 meters = 75 ft

For the first time in Europe, a team of american daredevils have come to show the French public what they can do with their stock cars... anybody can do it;;; provided no one cares about living or not!

On a ~~22~~ 400 meters long track at Buffalo sports ground, the american team equipped with Mercury, Lincoln, Packard, Chevorlet and Ford stock cars ~~ix~~ are doing their best to win... the only frenchman engaged in this new kind and hair-raising kind of competition is Roland Toutain, airman and acrobat, daredevil as any and famous for his fearless stunts.

But who is the winner ?.... doubtless the lucky guy who comes out of it... with all his limbs.
