

53/65.

GOODWOOD - NINE HOUR RACE.

Goodwood - and with a Le Mans start they're off on a nine hour International Car Race.

Sterling Moss in his Jaguar jumps into the lead. With the start at three p.m. it's a long drive till midnight and the pace is hot. Number 9 - another Jaguar has a duel with 26, a Fraser-Nash driven by G. Tyrer.

Number Nine begins to draw away but who's this? It's a Gordini driven by American Harry Schell.

In only its second year, this event is already a high spot in the calendar of British sports-car racing. Here's Sterling Moss again and now, well-up in the thirtyyear field, is Reg Parnell in his Aston Martin. Only two may work on a car at a time so the pits have a busy time. And now they're all set for the night..

712 miles was the distance covered by the winners and with an average speed of 79 miles per hour here they are. Reg Parnell and his partner E. Thompson. For Reg it's another win on the scene of some of his greatest battles.
