MAN THREATENS DEATH DIVE.

The fourteenth floor of New York's Veteran's Hospital. An overwrought ex-naval patient prepares to jump. Firemen with emergency equipment rush to the hospital where the stark drama continues into the night.

For fourteen hours the terrifying suspense continued and then Sidney Herman is rescued from the brink of eternity. "The whole world is against me" were the words he mumbled to rescuers, but amongst those who weren't was Nurse Corrigan, who pleaded with him for hours not to jump. Once again fact had proved more terrifying than fiction as one man held a mighty city in the spell of fascinated horror.
