AIR STRAFFING IN INDOCHINA

Reels material serviced to all competitors

POSITIVE DEVELOPED: 104 meters - 343 ft

Supporting the present operations in Indochina, Franco-Vietnamese air forces are going out on round the clock missions over enemy positions.

This material shows Air Force strafing missions over Viet Minh territory. Bombs loaded under plane's wings, pilots getting in craft, taxiing on airport and taking off, Planes take off one after the other, after last briefing, and then over enemy territory unloading of bombs. Hits on ground and explosions in enemy territory.
