COMPLETE DESCRIPTION OF SCENES

All photographers, writers etc. were kept at a distance of 30yds from this new British Tank. No close ups, top shots, or low shots were allowed, in fact I wondered why we were invited at all. The Conqueror did a couple of small runs on ~~an~~ a cement road and that was the end of that, all over in a very few minutes.

.....

1" 2" and 5" shots of the Conqueror, static and running shots. Shots of the new ~~gun~~ Gun being elevated but they would not take it up to its maximum height, in short they would not allow anything.
