SIAMESE TWINS HOME.
Location: Leeuwarden and
 Molenend.

Length: 120 M.
 Saturday, July 3rd.

The Siamese Twins Folkje and Tjibake de Vries (born November 7th 1953 and separated on June 12th 1954) could leave the hospital at Leeuwarden (capital of province of Friesland) on July 3rd.

After trying in vain several times, we succeeded under great difficulties to enter the hospital and to make exclusively pictures of their departure.

After that we followed the family to their home in the little village of Molenend near Leeuwarden, where the population welcomed them in force. (ALSO NO COMPETITION PRESENT).

We now send you a roughly cut story of about 120 Metres, to which we have added 2 reproduction scenes of still pictures, ~~xxxxxx~~ which were taken by surgeons in the hospital shortly before the separation started on June 12th. These might be used as introductory shots. Separately you will find a shotlist which with ample information.

POLYGOON.
