MARLOW - AQUATIC SPORTS:

It's Marlow's Rag Regatta and we're in can some crazy aquatic behavior. No ruthless rules or severe training - just plain fun on the water.

All set for the Canoe rescue race. There are a good many things you can't do in a canoe and this looks like being one of 'em.

Once aboard, the object is to paddle upstream, round the buoy and through the tyre once again - next time head first. That's not quite the idea. Still, at moments like these one can only be philosophical.

The canoe's doing all right but there's no need to worry - with a summer like ours you're as well off in as out.
