CYCLE CHAMPIONSHIP, COLOGNE.

More than ten thousand people including many British soldiers are at Cologne to watch F.G. Peacock of Carnhalton Surrey show his paces in the world amateur cycle sprint championship. J. Tressider of Australia is breathing on his neck.. But this time it's Peacock - by half a wheel. That makes it one race each to the finalists - third and last race coming up.

They're off once more for the decider. Question in the minds of cycling fans is will Peacock bring off the double, you'll remember he won the Empire Games Championship at Vancouver. Each waits for the other to make the break.

And it's Peacock again!

Tressider is putting all he's got into it but Peacock's leading all the way. And..yes!...he's done it.

It's a well-deserved honour, with a timing of 12 seconds for the last two hundred metres on both races. It's his first world title, so to Peacock we say: congratulations - and thanks!
