The Coronation Year Mk II to-day made a trial run and a speed of 30 mph was obtained, at which speed the vehicle was remarkably smooth showing that it has great possibilities. Certain minor adjustments appeared necessary which should take a few days only.

A reserve craft in this interval namely "Silver Bird" owned by Mr. Dibdin of the Fylde International Yacht Club will during this period attempt an interim record.

It is intended for the Mk II to make its attempt during the three weeks it is at the Clubs Headquarters.
