HAIR STYLES ROUND THE WORLD

From many parts of the globe, leading hair-stylists come to the Royal Pavilion at Brighton to compete in the World Championship Hairdressing Competitions. Britain is represented and so are Austria, Belgium, Germany, France, Sweden, Norway and Denmark. All the competitors remain anonymous for the time being so that the judges won't be influenced in a sudden flush of patriotism.

The competition, which is run entirely as a team event, has been held for four years and every time French has been the winner. Now some of the finished results, all completed in under one hour. And even if we "short back and sides" merchants can't appreciate all the finer points, we can admire the artistry and skill needed to create a coiffure so graceful and delicate as this.
