

FIRE POWER

WEIST-Fitzgerald

X The Air Force demonstrates its terrible striking power at Egin
 Air Force Base, Fla., where a mighty B-36 intercontinental
 bomber empties its huge bomb bay high over an imaginary target.---
 the bombs tracing a dotted line of destruction.

X Here's the F-84 Thunderjet in deadly rocket and bombing runs.

X Another rocket away, and the plane follows its own rocket trail
 toward the target.

X F-86 jets swoop low to rain a fiery deluge of napalm bombs.

X More fire bombs draw a flaming curtain on a terrifying spectacle
 of air power.
