54/85.

QUEEN IN SHEFFIELD.

Sheffield schoolchildren form the word "Welcome" across Hillsborough Football Ground as their own greeting to Her Majesty the Queen and Prince Philip who are making a two-day visit to the West Riding of Yorkshire. This massed display, attended by about 43,000 boys and girls, takes place on the first day of the royal tour.

New intricate marching and counter-marching, by the children who have been practising the routine for many weeks.

There's a special cheer from the crowd as three thousand children form themselves into the pattern of a giant Union Jack.

The Queen and Prince Philip board a Land Rover to drive among the high arena so that all the children may have a closer view of them.

The tumultuous reception given by the children of Sheffield to the Queen and her husband is perhaps the most memorable scene of the royal visit to Yorkshire.
