TOKYO RIOTS

WEIST -- Aarsoth

A midnight strike hits the Tokyo Stock Exchange, with hundreds of pickets chanting and swaying in front ~~of the main entrance~~ of Japan's financial nerve center.

Daylight swells the number of pickets, while the management counters with a lockout order banning strikers from the building.

The picketing erupts into a scuffling, shoving match when police are called out. Some are trampled underfoot, and many arrested as tempers outside the Tokyo Stock Exchange.
