ITALIAN MOTOR SHOW:

The 37th International Automobile Salon at Turin - and at the Renault Stand the famous rear engine is uncovered. Similarly displayed is the chassis of the Italian Fiat. Thirteen countries have sent their cars.

Here's a Mercedes Benz. There are cars to suit all tastes, and with all the latest gadgets.

The Lancia - a sports car de luxe.

Sports models again - among them, Ferraris and Alfa Romeo's.

Now the new Fiat 500 And the small Fiat Saloon followed by the Rolls Royce saloon.

Fantasy? No, its the car of the future - by Fiat. Whichever way you look at it on the revolving stand its certainly an eye catcher - here it is from the other end!

Now a preview of our motor show in Britain - the two latest models of the Rolls Royce and the Rolls Bentley. The aristocrats of the motoring world.

New features of the Bentley include a streamlined boot, new chassis and suspension design, and automatic gear change.

On any map, the new Bentley "S" and the "Silver Cloud" will be sure to do credit to British craftsmanship.
