

PRIME MINISTER AT LEAMINGTON

For the first time since becoming Prime Minister, Sir Anthony Eden (accompanied by Lady Eden), visits Royal Leamington Spa - his constituency. The occasion is very much a home-coming, for Sir Anthony has been the "honourable member for Leamington" for 32 years.

Now a tour through the town - basking today in the reflected glory of its member's "greatest personal triumph". He and his wife are cheered and congratulated all along the route in a manner which clearly extends past the fields of politics.

Socialist Mayor Alderman Gardner leads the way onto a balcony of the Town Hall - from which vantage point the Prime Minister can wave to those whom he referred to earlier as "close and intimate friends".

More than a civic occasion, it is a proud day for Royal Leamington Spa!
