Today few hours ago we have laid our signatures in the name of 8 countries taking part in the European conference for peace and security in Europe, under the Treaty of Friendship, Cooperation and Mutual Help and under the decision about the forming of joint military command of military forces of our countries. The representative of great People's China - observer on our conference has declared full solidarity and support of our Treaty on the side of Chinese People's Republic".

100% - speech by Peng Teh-Huai: "Dear Comrades! Friends! No enemy can harm the just cause of peoples united in the great idea of marxism-leninism. In the question of peace in Europe and throughout the world the Chinese people are your true and most faithful friend. In the name of peace and justice we advance bravely arm in arm."

100% - speech of Nicolai Bulganin: "Dear Comrades, Friends! In the name of the Government of Soviet Union and of the Soviet People I most sincerely greet you - the inhabitants of heroic Warsaw and in your persons the entire Polish nation.

The Warsaw conference has taken the decision of creating a joint command of the military forces who will be selected by all the countries signatories of the Treaty. Commander in Chief of the Joint Military Forces was appointed Marshall of Soviet Union - comrade Eoniev. The Treaty signed this morning has defensive character. The immovable foundation of the politics of peace of the countries of the democratic camp is the rule of peaceful coexistence of countries formulated by great Lenin. New Soviet proposals in the question of disarmament, outlawing atomic warfare and of removing the danger of new war, are distinct proof of our endeavour to preserve peace. We want peace. At the same time we clearly state that we shall undertake all steps so that nobody can trouble our frontiers.
