NEWM OUTLINES POLICY FOR "SUMMIT TALKS"

With the Geneva Talks only a few days away, the Prime Minister, accompanied by Lady Eden, attends a dinner in his honour given by the English-Speaking Union. Mr. Attlee introduces Sir Anthony to distinguished guests from many lands.

All are eager to hear what he will say about the forthcoming Big Power meeting. Britain, he declares, will not depart from three principles:

- "We are not prepared to break up NATO" (Clapping)
- "We will not be parted from the United States of America" (Clapping)
- "And we will work for the unification of Germany"
