HOMECOMES ON SHOW:
HANDICRAFTS EXHIBITION.

Craftsmanship from many lands is on show at the Handicrafts Exhibition at Harls Court. Carvings from the Gold Coast may take your fancy. Or maybe you're more interested in this wrought iron lamp from Spain. The lovely demonstrators are as national as the products.

Theme of the exhibition is "do it yourself" - and here's something to make "doing it yourself" a lot easier; an automatic sewing machine which does embroidery. Just the job for playing noughts and crosses.

Hanging paper on the ceiling is enough to drive anyone up the wall, but it's easy when you know how. Irene Goodwin, who's a shorthand typist from Manchester, learned the tricks of the trade from her father. Not a wrinkle to be seen.

Talking of walls - do you feel like printing your own patterns? That's easy too - with this little gadget, which works just as well on paint or distemper,. But if you've got children in the house you'd better keep it locked up!
