NEWS FLASHES.

Crop-spraying by boat is a new idea being tried out on a Hungarian state farm. If you want to water your cabbages this way, just dig a canal down the middle of the garden and let her rip! You can mix fertiliser with the water, too.

This boat can deliver four hundred and fifty gallons a minute, squirted over 100 yards - and if you ask how many watering cans that replaces, we just don't know.

Sir Winston Churchill's son, Mr. Randolph Churchill, comes to Israel for a ceremony in honour of his father. Near Haifa, the foundation stone is being laid for the "Winston Churchill Technion Auditorium" a new University project.

Mr. and Mrs. Churchill are warmly received by their Israeli audience. This ceremony is in tribute to the man who gave Israel much-needed support in the first difficult years.
