

CYCLE SHOW.

Who's been riding on my bike? Whoever it is, he's bang up to date, for these are the 1956 models making their bow at the Cycle and Motorcycle Show, Earls Court. Here's the new Bessa Scooter - or perhaps you prefer the Excelsior. Both well-built models. The scooters, we mean.

Or if you'd rather see inside what you're buying, here's an Ariel Huntmaster with all the works showing.

The Power-Pak Moped is nicely streamlined, and does about 200 miles to the gallon. As petrol gets dearer and parking space smaller, these powered pushbikes are becoming increasingly popular. Here's another - the Hercules Grey Wolf - two-speed gearbox and no uphill pedalling!

Tony Hoare and Brian Robinson with the Hercules "Tour de France Equipe" - the only two Englishmen ever to finish this race. Here's the Triumph on which Johnny Allen reached 190 miles an hour in Utah. And now - the industry's answer to the Autumn Budget!

PATHE NEWSREEL NO. 55/98

(Released Monday, November 14th, 1955)

CYCLE SHOW

51 Who's been riding on my bike? Whoever it is, he's bang up to date, for these are the 1956 models making their bow at the Cycle and Motorcycle Show, Earls Court. Here's the new Beza scooter - or perhaps you prefer the Excelsior. Both well-built models - the scooters, we mean.
