MIDGET WRESTLERS
Paris, Velodrome d'Hiver
January 24.
exclusive as far as known
Positive developed: 16 meters = 54 ft

For the first time in Europe Midget wrestlers are having a good fight at the Velodrome d'Hiver and a crowd as never seen before for wrestling piled in the large stadium.

They are wrestling by teams of two and sometime the four are in the fight. However "Black Pather" and his teammate Lord Clayton, won against SKY LOW-LOW and Tom THUMB...

the Midget wrestlers are full of pep! and look as if they really were mad ...
