COLD WAVE: Skating in Paris
Positive developed; 35 meters - 120 ft.
PATHE JOURNAL
6 rue Francoeur,
PARIS (18).

Paris, February 24, 1956.

COLD WAVE: Skating in Paris authorized skating on lakes in Bois de Boulogne and
Positive developed; 35 meters - 120 ft. and safe.

When the long waited for authorization was known, many
parisiens rushed on their skates to have WINTER SPORTS right in Paris... Children
were on vacation yesterday and the Lake of the famous Bois de Boulogne was
crowded with the youngster enjoying this sport for the first time in years in the open.

In the fourth week of the bitterest cold experienced in
France, Paris Police prefect authorized skating on lakes in Bois de Boulogne and
Bois de Vincennes, as the ice is thick and safe.

When the long waited for authorization was known, many

crowded with the youngster enjoying this sport for the first time in years in the open.

PARIS (18).

Paris, February 24, 1956.

In many places in the Bois de Vincennes and Bois de Boulogne,
ducks have been victims of foxes, now that they cannot escape on water... Small
artificial ponds have been built for them, and seagulls are taking advantage of these
to get drinking water.

Positive developed; 35 meters - 120 ft.
