GERMAN NEWSREEL PRODUCTION

Issue No. 342/3

Gruelling Test (30 m - exel.)

Dare-devil motorcross riders must depend on their motorcycles.
A German manufacturer therefore lets his motorcycles and riders
undergo hair-raising trial-runs on a mountainous track.
Men and material go through a gruesome test on the rocks and
through the muddy streams. But they make it!
And when the machine is taken out on the race-track one can be
sure that no undue risks are involved under heavy strain!
