FOURLEGGED COMPANIONS (40 m - UFA excl.)

The Shetland-Ponies of the writer Lisa Gast in Lorch (Bavaria) belong to the family. They are the companions of her children who grow up with them. In the morning they ride and at dinner, too, they are inseparable friends who share the meals. But they don't appreciate Frau Gast's efforts on the typewriter! Ponies and children are tired and they go to bed together and sleep till a new day dawns.
