Carneval in Munich

32m

In Munich Prince Charles III took over the traditional "foolish" rule during the Munich turbulent Carneval Season. Together with the most Gracious Princess he visited the first big social event in the "Deutsches Theater". All the pomp and splendour of the carneval customs lent the peculiar gay atmosphere to one of the season's highlights. The royal couple made their entry into the ballroom in a charriot formed like a champagne bottle. The princely guard gave a gala performance and everybody was very, very happy!
