Story : "WORLD'S LONGEST DAM INAUGURATED IN INDIA"

Location : Hira kud (Orissa State) South East of India.

Inaugrating the worlds longest dam at Hira kud, in Orissa state, South East of India, Prime Minister Nehru said that Orissa was a land of temples and the state was now getting a n new temple and in it a God for the whole of the country.

Nehru further said that the construction of the dam will create new vigour in the people.

Mr. Nehru laid the foundation stone of the dam in April 1948 and at that time he said: The hope which you create today will carry the people forward in order to play important part in the development of the country.

The inauguration of the d_a, will bring electricity to hundreds of villages which will mean more prosperity and development for the country.
