"YOU WILL UNDERSTAND ME WHEN I SAY THAT IT IS A MIXTURE AND SORROW AND PRIDE THAT I SPEAK TO YOU AS PRIME MINISTER OF BRITAIN SORRW BECAUSE MY FRIEND AND LEADER HAS HAD TO LAY DOWN HIS BURDEN BECAUSE OF GRIVOUS ILLNESS - A MAN OF CHARACTER AND COURAGE I'M SURE THERE IS NOT ONE OF YOU THAT DOES NOT JOIN WITH ME TONIGHT IN WISHING HIM A SAFE VOYAGE AND A SPEEDY RESTORATION TO HEALTH. APART FROM THAT IT IS A PROUD THING TO BE GIVEN THE OFFICE OF PRIME MINISTER OF BRITAIN

2. S.C.U.

IT'S TRUE OF COURSE THAT IN A MATERIAL SENSE ~~THE COMMONWEALTH~~ POPULATION, TONAGE OF STEEL, SUPPLIES OF METALS OF RAW MATERIALS THIS ISLAND CAN NOT MATCH THE VAST RESOURCE EITHER OF THE UNITED STATES OF THE SOVIET RUSSIA . ALL THE SAME BRITAIN IS NOT ALONE THINK OF THE COMMONWEALTH AND ALL THAT THIS MEANS THINK OF THE PEOPLES OF EUROPE WITH THESE COUNTRIES WE ALREADY HAVE CLOSE TIES AND I FIRMLY BELIEVE THAT THAT IT IS OUR DESTINY TO WORK MORE AND MORE CLOSELY WITH THEM . THEN TOTAL STRENGTH WEALTH ALL THESE COMMUNITIES COMMONWEALTH AND EUROPE NO LESS THAN THAT OF THE TWO GIANT POWERS - OF COURSE IT ISN'T JUST MATERIAL RESOURCES THAT MAKE A NATION GREAT IT IS CHARACTER AND LEADERSHIP NOT ONLY GOVERNMENT BUT IN INDUSTRY AND IN TRADE UNIONS IN THE HOMES - EVERYWHERE

S.C.U.
FOOL.

THERE IS ONE MORE THING TO WHICH I MUST MAKE REFERENCE LOTS OF PEOPLE HERE ARE WORRIED BECAUSE OF OUR RELATIONS WITH THE UNITED STATES THE LIFE OF THE FREE WORLD DEPENDS ON THE PARTNERSHIP BETWEEN US OF COURSE ANY PARTNERS ARE BOUND TO HAVE THESE DIFFERENCES NOW AND AGAIN I HAVE ALWAYS FOUND IT SO TRUE PARTNERSHIP IS BASED UPON RESPECT WE DON'T INTEND TO PART FROM THE AMERICANS AND WE DON'T INTEND TO BE SATELLITES AND I'M SURE THEY DON'T WANT US TO BE. STRONGER WE ARE THE BETTER PARTNERS WE SHALL BE AND I FEEL CERTAIN THAT AS THE MONTHS PASS WE SHALL DRAW CONTINUALLY CLOSER TOGETHER WITH MUTAL CONFIDENCE AND RESPECT AS FOR COURAGE CHARACTER I KNOW THE BRITISH PEOPLE HAVE THESE IN FULL MEASURE. PRIME MINISTER'S SPEECH.

NEWSREEL.

You'll understand me when I say that it's with a mixture of sorrow and pride that I speak to you as Prime Minister tonight. Sorrow, because my friend and leader has had to lay down his burden because of grievous illness. A man of character and courage. I'm sure there's not one of you in this country who does not join with me tonight in wishing him a safe voyage and a speedy restoration to health. And pride, yes pride, on assuming the great office of Prime Minister.

There's an immense job ahead, and we mean to do it. I've picked my team to get on with the job, and to get results - and to keep on getting results. There's going to be no General Election.

Every now and again since the war I've heard people say "Isn't Britain only a second or third class power now? Isn't she on the way out?" What nonsense. This is a great country and don't let's be ashamed to say so. It has a superb record of achievement of every kind. The country that produced the men who invented the steam engine, gave us penicillin and discovered radar, and the men who first mastered the atom; the country that built the first atomic power station has no reason to quiver before our temporary difficulties. After all, this year that's just passed, we have had all-time record exports and the best savings for years. Anyway, twice in my lifetime I've heard the same old tale about our being a second rate power, and I've lived to see the answer.

It's true that in a material sense, population, the tonnage of steel made, or supplies of metals and raw materials, this island can't match the vast resources either of the United States or of Russia. All the same Britain isn't alone. Think of the Commonwealth and all that this implies. There there are the peoples of Europe. With these countries, with France perhaps particularly, we already have close ties. I firmly believe it is our destiny to work more and more closely with them. The total of the strength and wealth in all these communities, Commonwealth and Europe, is no less than that of the two giant powers. But of course it's not just material resources that make a nation great. It's character and leadership not only in Government but in industry, in the trade unions, in the home, everywhere.

There's one more thing to which I must make reference. A lot of people are worried about our relations with the United States. The life of the free world depends upon the partnership between us. Any partners are bound to have their differences now and then. I've always found it so. But true partnership is based upon respect. We don't intend to part from the Americans and we don't intend to be satellites. I'm sure they don't want us to be so. The stronger we are, the better partners we shall be; and I feel certain that as the months pass we shall draw continually closer together with the mutual confidence and respect.

As for courage and character, I know the British people have these in full measure. All we need is confidence in our country and in ourselves. So don't let's have any more defeatist talk of second class powers and of dreadful things to come. Britain has been great, is great and will stay great, provided we close our ranks and get on with the job.
