

REVOLT THAT FAILED:

MOROCCO:

Revolt flares up on Morocco's southern fringe - the wild mountains of Tafilalet - but it's not many days before the fierce Berber tribesmen realise that someone's been misleading them. Their leader, provincial governor Addi Ou Biki, talks to reporters and cameramen who have found their way to his mountain hideout - the fortress town of Midelt.

These tribesmen who once terrorised southern Europe, gathered when Addi Ou Biki told them they were going on a hunting party - but when they discovered the quarry was to be the Sultan's army, they had second thoughts. So now the governor talks peace while his men await the outcome. The Sultan's General Kettani accepts the surrender, and one by one the tribesmen make Berber history by laying down their arms before the General.

So the revolt that hardly started is over - and the tribesmen are still wondering what it was all about!
