QUEEN JULIANA NAMES NEW SHIP.

Length: 48 metres.

In a shipyard in Rotterdam, the motorship "Prince of the Netherlands", was ready to be ~~xxx~~ named by H.M. Queen Juliana. The Royal Standard was hoisted when Queen Juliana, accompanied by the Prince of the Netherlands, arrived at the yard.

The photo-reporters had higher aspirations !

Then the Queen named the ship : "I name you Prince of the Netherlands, and I wish you a ~~good~~ journey".

The "Prince of the Netherlands" is a motor-freighter with passengers' accommodation. It measures 5250 tons, has a length of 131 metres and a breadth of more than 17 metres.

The ship is intended for the trade with Curacao and Aruba and the surrounding countries in the Caribbean Sea.
