QUEEN JULIANA'S BIRTHDAY.

Length: 71 metres.

In the front garden of the Palace of Soestdijk took place a floral tribute and a march past Queen Juliana, celebrating her birthday on April 30th.

From one of the Palace windows H.R.H. Princess Wilhelmina watched this homage.

Two little Hungarian refugees offered a Hungarian cake to H.M.

Meanwhile 900 gymnasts had lined up in the palace-garden, and they together formed the map of The Netherlands. Deputies from all Dutch municipalities then passed Queen Juliana and her family and finally filled up the living map of our country.

In several other towns in The Netherlands this day was celebrated, by children-processions, balloon-matches, aubades etc, and payed homage in this way to our Queen, who, after having watched the greater part of the march past, went by jeep, together with Prince Bernhard and the children, along the thousands of people, who couldn't take part to this march past.
