Will Johnstone

Original developed negative: 53 meters - 175 ft

The famous jockey Willy Johnstone, has announced that he will retire shortly.

On a short trip in Paris, before flying over to Australia to see his mother, we were able to meet him, driving his car down the Champs Elysées, having a good look at the Arch of Triumph before leaving the town which helped make him famous.

Note Mr. Johnstone was not very cooperative and had only a few minutes to spare this is all we could do for you.
