

57/63.

A BABY FOR GINA.

The biggest aspidistra in the world - or something very near it - is hardly big enough to celebrate the arrival of the baby all Italy has been waiting for. Six pounds nine ounces and doing fine - and so's mother who is none other than La Lollo herself - Gina Lollobrigida, the 28-year-old queen of the Italian screen. With husband Milko Stefanic, she looks through some of the thousands of congratulatory telegrams. The Baby's to be called Milko, too.

Milko Junior is one up on mother already, he's started his film career a good deal earlier. But Gina's not a bit jealous- just overjoyed!
