Europe's most beautiful Athlet competition
positive developed : 12 meters - 40 ft
all competition

An international competition organized by a Paris Newspaper, and the Federation of Culturism, took place yesterday in Paris at the Salle de la Chimie to crown Europe's most beautiful athlet.

Muscle men were in the competition... and they had a hard work to finally name the Belgian Pierre VANDERVOULLEN as the most beautiful athlet of Europe. It all depended on his attitudes and shape of his muscles in imposed positions...

So after all it was Nr. 13 Mr. Pierre Vandervoulien who was the winner, second was the British Ron Thomas, and third the frenchman Pierre Fallais Nr. 16 who has already the title of France's most beautiful man!
