## Winter Lodging for Swans

In summer 350 swans enhance the beauty of the famous Alster Lakes in the center of Hamburg. The majestic swans and their offspring (among them a couple presented by Queen Elisabeth) are the favourite pets of the Hamburgians. It has, however, become more and more difficult for the swans to find their food in the lakes during the winter months. So the authorities decided to provide winter lodgings for the swans. They are caught and transported to a smaller lake in the town where they are taken care of and fed during the winter months.
