## Ski Jump

51 ski jumpers from ten nations participated in the traditional ~~jump~~ jumping event at Oberstdorf.

As mild spring-weather prevailed snow had to be ~~manually~~ transported to the jumping-hill from higher spots in the Alps, nevertheless, good results were scored, but also a lot of spills thrilled the crowd of fans.

The decision between the Russian Kamenski and the German Recknagel came at the end of the tournament, when the Russian Student made a winning jump of 77.5 metres. This was followed by a 76.5 jump of Recknagel.

250 feet

250 feet

Kamenski, who had won the event two years ago, received the highest number of points "117" and was again winner of the Oberstdorf ski event.
