**Pomp and Splendor at Automobile-show in Amsterdam.**

**Length: 44 Metres.**

-----

200 cars from 8 countries were present at the first international Automobile-show of this year in Amsterdam.

The United States stagger the visitor with their 300 h.p. Ford Thunderbird and their 250 h.p. Hicol.

Oldsmobile is also present with the experimental Golden Rockett.

In contrary to the luxury American cars the products of European factories strive for economy, as is shown in the DAF-600 and the Fiat 1200.

For the first time the Netherlands automobile-industry is present with a passenger car, the 4-seater DAF 600, with a 2-bast motor, boxer type. This car has an automatic transmission, without gear-box, by a special construction called "Variomatic".

Now were also the Vespa 400 and the Sunday-Janus. In this lilliput car people sit back to back around the 1 cyl. motor.

In general this car-exhibition shows the advance of the little European car.
