EASTER CYCLE RALLY.

The Isle of Wight's a handy place for mass-start cycling, just as the Isle of Man is for motor-cycle racing. - and for the same reason; you don't get in anybody's way very much. So hundreds of keen Clubmen are here for the annual Easter Rally - five races on two days, round an eight-mile circuit.

You've heard about the milkman's horse who became a Derby winner? Well, the Rally seems to be giving the newspaper boy ideas - and that's one of the things that make the Rally so exciting; there's no nonsense about closing the road to traffic - if you meet a lorry coming down - well, that's just the luck of the game.

Winner of the race for the Sandown Business Association Cup is W.T. Seggar, of Suffolk Roads Cycling Club - who seems reluctant to say "Thank you" properly to the Rally's Cycling Queen, for his prise. Stand back and let a man have a chance!
