ARMY SHOWS LATEST WEAPONS SYSTEM:

Introducing the infantryman's new faithful traveling companion - the M-14 with the shorter seven-point-six-two millimeter cartridge, standard for NATO nations. While ballistic missiles have won headlines, Army Ordnance has come up with this remarkably versatile weapon. It replaces the BAR.

The carbine and M-1 rifle.

And submachine gun.

The new M-60 General Purpose Machine Gun further reduces the lineup. It replaces three 30 calibre machine guns. To prevent overheating, barrels can be changed - and watch how quickly.

A new weapons system, for the ground fighter.
