

MOSS'S NARROW ESCAPE.

A specially built Maserati is the choice of Stirling Moss for the 500-mile event at Monza, the fastest motor-racing track in the world. And this event is particularly interesting because it brings the top European drivers up against the Americans - a rare combination.

Ivor Bueb's Jaguar leads Hawthorne and Moss round a curve - and there's Jim Rathman in his Zink special. And another American - Bob Veith.

And that dent in the barrier means Stirling Moss is out of the race! Steering failure at 150 miles an hour! A lucky escape - leaving Jim Rathman and Jimmy Bryan to take first and second places for America.
