Mrs. J. Pearson,
Alwick Street,
Horden,
Co. Durham.

12th November, 1958

Dear Mrs. Pearson,

We were very much moved recently to read about your little son, and the wonderful devotion of June Turnbull, and we are wondering if you would allow us to send a cameraman to Horden to take a short film for our newreel of Dickie with June, and also playing with his friends. This would make a very human story and we hope that you will be able to agree to our request.

Just recently we showed a film of an armless mother, who although she was actually born without arms was still able to machine, sew, embroider, cook and bring up her large family quite as efficiently (and probably more so) than others without this handicap. We also took a film of a young farmer, who through a farming accident, lost both his legs and with artificial limbs was still able to run his farm just as well as before the accident.

People from all over the world who are similarly handicapped were so impressed that many of them wrote to us saying they had been given new hope and confidence after seeing the films, so you see you could help so many if you would agree to our request.

May we please look forward to hearing from you? If you will be kind enough to ring us at GERRARD 4314 we would be grateful. You could then let us know which day and time would be convenient for you.

Thanking you,

Yours sincerely,
ASSOCIATED BRITISH-PATHE LIMITED.
