

BENNETT QUADS HAVE FIRST BIRTHDAY.

Baby's first birthday's a big event in any family; for Mrs. Bennett and her husband it was four events rolled into one. Just a year ago the Bennetts were the talk of Stepney; they'd been blessed with quads; two lovely boys, two girls. Now, a year old, they're boundingly healthy and had no objection at all to being film stars for the afternoon. They're the latest set of five surviving English quads. Tony...Thalma...Beverley... and David. The odds against any woman having quads are several millions to one, which doesn't make it any the less exciting, even bewildering, if that one happens to be you. Most women know that one baby's a full time job; four simply stagger the imagination. But don't let's go into details. Now they've got used to the idea, the quads' parents are the happiest couple in Stepney.
