STEYNLAAN 5

Unique device gives fun to babies.

Length: 40 M.

Children can make things difficult for their parents.

When there are more children in the house, soothing the one can lead easily to undesirable activities of the other.

What can be done to prevent such evils?

An inhabitant of Barneveld found an answer to this question, which was entirely new for Holland.

Attention please!

The preparations do not cause more trouble than changing diapers.

Also the next grips are not too difficult.

When everything is fixed so far, then baby is quite ready for his daily morning-gymnastics.

This unique device gives the little ones a lot of fun, especially when they can act together.

This "baby-turner", of which rubber is the most important ingredient, has a two-fold use, it develops the muscles and it keeps son or daughter quiet for some time.
